SELLERS NEED TO KNOW

February, 2018

... And what it means

Average Price

MLS takes all the sales for a time period (usually a month or year) adds their dollar amount and divides by the number of sales.

** The month of February average is	\$519,142
The 12 month/year average is	\$496,738
Since February 2016	\$505,866

Median Price

This is the absolute middle price, in other words, there are the same number of sales this price as there are above price.

The month of February is	\$490,000
The 12 month/year average is	\$422,000
Since February 2016	\$487,500

Sell to List Ratio

This shows the percentage of sales in comparison to the amount of listings there are. Typically there is a monthly percentage and a yearly one. The higher the percentage, the busier the market. A stable market would typically be around 55-65%. A seller's market is over 65% and a buyer's market is below 55%.

The month of February is	69%
The 12 month/year average is	79%
Since February 2016	74%

Seller to List Price Ratio

Is a percentage showing what the property sold for in comparison to its list price. It is shown monthly and for the year.

** The month of February is	98%
The 12 month/year average is	98%
Since February 2016	98%

** For the monthly figure this can be misleading. If there are disproportionate amount of higher or lower sales, it skews the average in that direction. All of these statistics can be broken down by area: Courtenay City, Comox, Cumberland, Courtenay East etc. The can be broken down by product: single family, condo apartment, condo townhouse, lots, acreage etc.

There is wide a variation of interpretation to these statistic and there are a number of other factors which influence them. At Royal LePage In The Comox Valley, we pride ourselves on keeping you as informed as we can on the market. We would be happy to meet with you to discuss any of these further.

Denman & Hornby Islands

Q: I have been working with a licensee for six months trying to buy a home. I came across one of my licensee's listings, and I am interested in making an offer. I want him to represent me but he says he can't, because limited dual agency is no longer allowed. Why can't I work with my licensee anymore?

Licensees are no longer allowed to engage in limited dual agency, except in rare circumstances. Your licensee cannot represent both you (the Buyer) and the seller in the same transaction.

Because of the prohibition on limited dual agency, the licensee you have been working with cannot continue to act for you. However, you can choose a different licensee to represent you going forward. Your licensee can suggest name of other licensees who may be able to assist you.

These are some of the new implications from the Real Estate Council of BC that will change the way you buy and sell real estate on the Islands. If you agree with it do nothing, if you think its an infringement on your rights as a consumer contact the email addresses below. This was decided by a RECBC survey, 68 consumers came up with this conclusion.

you may voice your opinion:
